

# PARIS STREET BRIDGE FLAG PROJECT

*welcome downtown*

Prepared for:

The Paris Street Bridge Flag Committee

The Flag Project is to enhance our city by helping to change our image of, "just another northern mining town", to a rich, diversified, multicultural, multilingual, world-class community with a worldly outlook. We want to appear truly welcoming to visitors, tourists, investors, delegates, immigrants and foreign students alike. We want all our citizens and visitors to feel at home in Sudbury.

Architectural Assistant

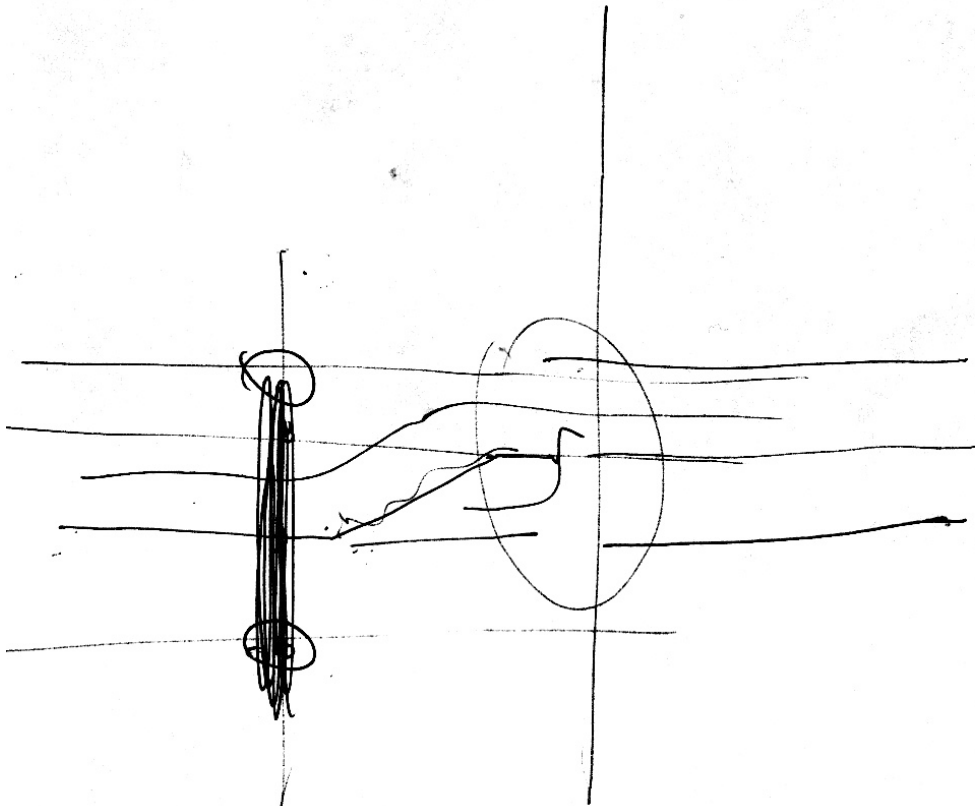

## Creating a Gateway

the concept:

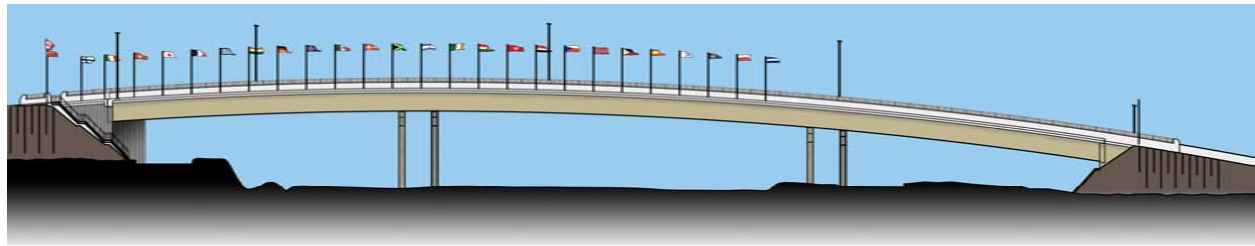

just as the railway acts as a man made river dividing the city, the paris street bridge flags will create a gateway, an entrance to welcome visitors into the downtown core.
