D. Bélisle
General Manager of Public Works

Division Review

Ontario Regulation 459/00 requires that all operators of communal potable water systems file an annual report, no later than March 31, with the Ministry of the Environment. This report, called a Compliance Report, must contain the following:

- Details of all measures taken to comply with the requirements of all Certificates of Approval for all waterworks systems operated by the municipality.
- Details of any non-compliance(s), and the measures taken to comply with the Regulations and Certificates of Approval.
- The quantities of water supplied.
- All results from sampling and analysis regimes.
- The chemicals used in treatment regimes.

The Owner of a communal potable water system(s), in this instance, the Council of the City of Greater Sudbury, is required to pass a Resolution authorizing a person to sign off that the Owner (CGS) has received the Compliance Report, and that the required public review process is in place.

The firm of Earth Tech Canada Inc. was retained by the City of Greater Sudbury in November, 2002 to complete the required Compliance Report. Mr. Tony Cecutti, P.Eng. from the firm of Earth Tech Canada Inc. will be making a presentation of the 2002 Annual Water Works Compliance Report to the Policy and Priorities Committee on March 26, 2003.
